A THOUGHT.

The Lord rewardeth me according to my righteousness; according to the cleanness of my hands hath he recompensed me.—II Sam. 22:21.

God be thanked that there are some in the world to whose hearts the barnacles will not cling.—J. G. Holland.

Reputable producers of motion pictures have stated that some of the stars receive the enormous salaries with which they are popularly credited. No physician or lawyer, no matter how brilliant nor of how many years training, earns yearly sums anything com-

parable with the amounts paid to some of these youthful movie stars. These salaries must have come about thru producers bidding against each other rather than because the services performed are actually worth such immense sums.

Even if the state tax on coal be limited to shipments outside the state, the tax will be of great disadvantage to the producers. A tax of 10c a ton would make it impossible for the operators to compete in many fields.

Old King "Tut" was mightily concerned about the manner of his burial and all the things that should be put away in his tomb. History does not show whether or not he was just as particular about the way he lived.

If the young people 16 to 20 years of age knew that the good habits they are forming now are almost certain to continue with them to the end of the journey, they would understand something more about the importance of boys and girls work about which we hear so much about these days.

That was a mean Frenchman who called Germany's attention to the clause of the Versailles treaty which expressly states that Germany will not consider as an act of hostility any penalty imposed after the reparations commission has declared her in default.

THE KITCHEN EPIC.

After all the publicity given the marathon dancers, surely Susie Henock of Punksataway, Pa. deserves recognition. She is the girl who washed dishes steadily and energetically at a sink in a hotel kitchen for 31 hours.

Susie, who in addition to strong hands, a sturdy frame and a fair face has the gift of forthright speech, tells about it with what a New York interviewer calls "enraging frankness." There was a big dinner at the hotel and all the

other girls were tired. Susie felt fine. "You drag them dishes in here, and I'll show you what I can do," she said. So they dragged 'em in, and Susie started.

"The girls try to butt in," she says, "but I push them away. I think about the long-distance dancing craziness, and I think I will give them nuts something to think about, so I hop to it. Before long my hands got shriveled, but I stick. I sing all the time to keep me feeling good."

"Along towards morning my feet hurt, but I never stop. I wash, and I put the dishes away. When I get hungry, I eat off plates that ain't been touched. In the morning my eyes burn and my hands look like beefsteaks. Then the dishes come from breakfast, and I tell the girls to beat it. The dinner and supper dishes pile in, and I keep them for myself, and at 4 o'clock in the morning I put the last of them away. The hotel boss comes and says 'Stop,' and I tell him to beat it."

Asked for a message to the American public, Susie says simply: "I'm tired, and my feet hurt, but I got the satisfaction of knowing I knocked the spots off of them cheap marathon dancers." Here, surely, is an epic.

CAMP FIRE GIRLS GAVE SUPPER FOR SENIORS

Third Annual Supper of Yojasovi Camp Fire Group Given Last Night—Blue Birds Gave Program.

The third annual camp fire supper of the Yojasovi Camp Fire group in honor of the high school seniors was given last night at Pilgrim Memorial. Supper was served at 6 o'clock, following which came a demonstration of folk dances and songs by the two Blue Bird groups of the city.

The mothers of the Blue Birds had been invited as special guests and they found the program one of very special interest. The Blue Bird organizations are fostered by the Yojasovi group, the groups being known as the "White Hyacinths" and the "Pansies." Miss Caroline Doane being in charge of the Pansies and Mrs. F. J. Heintz of the White Hyacinths.

The White Hyacinth group includes Ruth Walbridge, Elizabeth Capps, Jane Mosely, Gretchen Beadle, Margaret Dunlap, Willa Wiseman and Margaret Goebel. In the Pansy group are Elsie Paterson, Jean Terhune, Cornelia Woods, Mary Lindeman, Mildred Carter, Margaret Hall.

The Yojasovi Camp Fire is the oldest camp fire group in the city, having been organized in 1917. Of the 20 girls who are members, 12 have reached the highest rank, that of Torch Bearer. Mrs. F. J. Heintz has been the guardian of the group since its organization and Miss Ruth Bailey is the assistant guardian.

The Blue Birds are the younger sisters of the Camp Fire girls and the organization is modeled along similar lines, the basic idea being the same, the conservation of the home. "Shirgo" is the watchword, and is taken from the words "sing, help and grow."

The Blue Birds start as nestlings, six in a nest. They are registered at the national camp fire headquarters in New York. The nestling carries her feathers, blue ones for health, nature or things done out of doors; brown for service, helping others in the home, and gray for making things by using her hands.

The nestling wears a ceremonial gown of gray galatea, and as she earns her feathers she sews them to her gown. When she earns 30 feathers she becomes a fledgling and can wear a blue cap. When 30 more are earned she becomes a filer and has a pair of wings.

Girls who have been especially active in the Blue Bird work are Misses Caroline Doane, Helen Cleary, Lois Harney and Catherine Wilson.

Special guests of honor at the dinner last night were Misses Maude Eva Hackett, Mary Edith Baumgartner, Helen Walton, Lavina Scott, Lois Harney and Caroline Doane. Other guests were Mrs. W. T. Wilson, Mrs. L. S. Doane, Rev. and Mrs. G. E. Stickney.

MANAGER DESCRIBES PRODUCTION OF MILK

Kiwanians Hear Interesting Story of Food Product—Contest in Attendance Closes—Dealers are Guest at Meetings.

Twenty-nine members of the local Kiwanis club have made perfect attendance records during the ten weeks of the contest just closed, it was announced at the meeting yesterday. A number of physicians who were interested in hearing the address by G. E. Wilkerson, manager of the Helvetia Evaporated Milk corporation, were guests of the club.

They were Drs. Carl E. Black, David W. Reid, H. A. Chapin, C. E. Cole and R. V. Brokaw. Other guests were Jewell Scott and A. M. Patterson of Moline.

Mr. Wilkerson told the club the story of how evaporated milk is produced. His address was as follows:

Good cow's milk is recognized as one of the most nutritious, wholesome and delicious foods. In its pure and natural form it is a complete nourishment for infants, and is used in the culinary art for the preparation of an almost endless variety of dishes and drinks.

Invented in 1855.

Being of a perishable nature, it is, in its original form, not fit for shipment over long distances; but in order to enable us to supply consumers everywhere, on land and sea, with this valuable product, the Helvetia company invented, in 1855, a process whereby it is preserved in all its purity for an indefinite length of time and the cost of transportation is reduced to a minimum.

This is accomplished by evaporating a large portion of its moisture, so that all of its nourishing and refreshing properties remain in a form resembling a rich cream, which is put up in cans, sterilized and called Pet Evaporated milk. It will keep indefinitely in any climate as long as the cans remain unopened. Its absolute purity and freedom from all health disturbing elements are recommending it most highly for general household use and for infant feeding.

Pet Evaporated milk can be used for any purpose where ordinary dairy milk or cream is used.

The raw milk from which this Evaporated milk is manufactured is produced on model dairy farms where strict sanitary rules are enforced. Deliveries of the raw product are made daily and as early as possible. When the milk is received at the plant, each patron's milk is carefully inspected by experts with reference to flavor, acidity, butterfat, specific gravity, cooling and sediments. Any milk not perfect in the above points is rejected and returned to the producer. In the manufacture of Evaporated milk only

the milk of the best quality can be used.

The herds producing the milk for the manufacture of this evaporated milk are regularly inspected by our specialist to make sure that the milk comes from healthy herds. This specialist also looks after the feeding of the herds, as well as the sanitary conditions of the barns and surroundings. The cows are kept clean and the milk immediately after it is drawn, is thoroughly cooled as to deliver it at the plant in the best condition. When received at the plant, the milk must then pass the above inspection, after which each patron's milk is weighed. The cans in which the fresh milk is received, are then thoroughly washed and sterilized and returned to the patron.

The Process Explained.

After the milk is weighed, it is placed into large copper vats called hot wells, where it is heated, which prepares it for the vacuum pan. From four to five thousand pounds are prepared in one hot well and usually two hot wells are used for one batch in the vacuum pan. In the vacuum pan about from 50 to 60 per cent of the water is taken out of the milk, leaving the milk in a creamy consistency of a certain specific gravity. This part of the process is called condensing or evaporating.

Fresh milk contains from 87 to 89 per cent water. After the condensing, the condensed product is then passed thru a homogenizer, which results in the breaking up of the butterfat into very minute globules, which prevents the cream or butterfat from rising to the top in the can. After the milk is homogenized, it is run over a specially designed cooler thru which brine circulates, reducing the temperature of the condensed milk to about 38 degrees F.

The milk is then held in cold storage in large enameled tanks at the above temperature for from eight to ten hours. From these tanks the milk is passed thru sanitary pipes into an automatic rotary filler. This filler discharges the required amount into each can and seals it automatically.

From these fillers the cans are then placed into sterilizers, where they are exposed to a steam under pressure for a certain length of time.

After the sterilizing process is completed, the canned milk is thoroughly cooled and placed into the curing room for from ten days to two weeks.

This room is kept at a temperature of from 90 to 98 degrees F. The object is to show up any leaky cans. If cans are not perfectly airtight, bacteria commence to develop and the contents spoil.

When it is ascertained that the canned milk is free from spoiling the cans are then run thru a polishing machine, and from the polishing machine to the labeling

machine, where the label is put automatically on the can. The cans pass thru these labelers at the rate of from 110 to 130 cans per minute.

In order to be sure that the cans are all perfect they are tested by hand and placed into cases. The cases are then marked and loaded into refrigerator cars and shipped to the wholesale grocers all over the world.

Milk Not Touched by Hands.
No human hand touches the milk from the time it is drawn until it is placed on your table for use.

The plants are usually constructed to take care of from 100,000 to 200,000 pounds daily with an investment of from \$250,000 to \$350,000. We are now operating seventeen plants

at full capacity, and are building more every year.

We have invested many thousands of dollars in this big industry which our beloved president, Mr. Robert Lester, can rightly feel proud of the distinction of being the parent inventor because it has been generously conceded by all the great scientists as nature's foremost aid in benefiting all mankind and we can be mighty proud of the slogan which we adopted which you will find on every can of Pet milk.

FIRST OF SERIES OF RECITALS GIVEN

Miss Marie Luke and Miss Mary Lois Clarke Appear in Joint Program.

The first of a series of recitals to be given by certificate and diploma students of the college of Music I. W. C. was given in music hall yesterday evening by Miss Marie Luke, organist, pupil of Director Pearson, and Miss Mary Lois Clarke, soprano, pupil of Mme. Elma Taft-Colard. Both young women have become well known to music lovers of the city, thru frequent appearances at clubs, schools, churches and in more informal gatherings. Their friends from the city and their many friends in college circles joined in lending their presence and in the very pronounced evidences of appreciation of the evening's work.

Miss Luke played in a most charming manner. Her numbers were of large variety and contrast thus keeping the interest of the audience at every turn. To her choice of registration and skill in quick shifts was due a great part of her success. She has also sure fingers and feet, a fine sense of rhythm and an innate appreciation of her texts that has been much enriched by her serious study.

Miss Clarke never appeared to better advantage. Her lovely rich soprano voice, so full of sympathy and so vibrant, failed her never. The ebb and flow of melody brought a sense of repose to her hearers. Her high pianissimo tones and the fullness of her medium voice were a joy.

Surely these young women may look forward to large success as they face years of further study and the development that will come with responsibility.

Mme. Colard's artistic accompaniment gave adequate and satisfactory support to the singing of Miss Clarke.

FUNERAL OF WHITE HALL MAN TODAY

Late T. K. Young to Be Laid to Rest This Afternoon in White Hall Cemetery

White Hall, May 10.—Funeral services for the late T. K. Young will be held at the family home here at 2 o'clock Friday afternoon, in charge of Rev. C. M. Ross. Burial will be in White Hall cemetery.

The death of Mr. Young, whose precarious illness has been mentioned in this news service, occurred at 8:40 p. m. Tuesday, surrounded by all the members of his family in his home on King street. The end had been anticipated for several days. He was taken ill on the day following his 67th birthday anniversary, which occurred on April 17th last. Congestion of the lungs was followed by complications.

The Young family is one that has been active in this community since the parents of the deceased, Ephraim and Catherine Young, came from Glasgow, Scotland, 47 years ago, and of the seven children the only survivors are Mrs. Walter Burgess and Mrs. Harry Carr, both of St. Louis. Our subject followed painting and paperhanging as a profession and for a number of years he became widely known as patentee and sales promoter of the Daisy gate attachment, which he exhibited

at state, county and other agricultural exhibitions over the state. He was an advanced thinker along economic lines, but not an extremist. He lived to see some of his earliest views accepted as basic principles of economy. He was a member of no organization. His family of a wife and six children survive, the latter being Earl, at home; Troy, Rochester, N. Y.; Mrs. Elmer Lakin, Berdan; Miss Dorothy and Miss Alma, St. Louis; Mrs. William Mungall, Alton.

WRITES THOUGHTS ON LIFE FOR KIWANIS

President of Urbana Club sends copy of Message to Local Man—Words Are Well Worth Consideration

While attending a convention in Champaign recently, B. F. Lane made the acquaintance of Rev. Robert J. Locke, pastor of the Baptist church of Urbana, and president of the Urbana Kiwanis club. Later Rev. Mr. Locke sent to Mr. Lane a neatly printed Message on Life, which he had sent as an Easter Greeting to the members of his Kiwanis club. It was thought that local Kiwanians might be interested in reading this message. The thoughts expressed are worthy the deepest consideration of every reader. Here is the message:

"What is life? A chance to look at the blue of the sky; to see its fleecy cities; to hear the first swinging light of the wild bird in the spring time; to see the opening bud; to hear the bleating of the lambs on the hill side, to look at God's green earth and rejoice in Life, which he has sent as an Easter Greeting to the members of his Kiwanis club. STOP SELLING CIDER, AUTHORITIES DEMAND

Robinson and K'oran Warn Soft Drink Parlors to Buy no More Cider, as Test Shows Too Much Alcohol — Officials Determine to Cut off Source of Intoxication.

A warning to cease the selling of cider was given to a number of local soft drink places yesterday by State Attorney Carl E. Robinson and Chief of Police Frank Kiloran. The authorities made the rounds of four or five places known to be selling cider and told the proprietors that they were to purchase no further stock of the liquor after the present supply was exhausted.

The cider can be sold only under one condition—it must test less than one half of one per cent alcohol. Recent tests of the cider commonly sold at soft drink parlors show that it contains four to six per cent. Unless local dealers are willing to submit to tests and can show that their cider contains less than the one half per cent, they must stop the sale of cider.

It is believed by authorities that many of the recent arrests for drunkenness would not have been necessary if the cider had not been sold and within easy reach of purchasers. The visit of police to the places in question yesterday was a warning to cease the sale. If the order is not complied with in a reasonable length of time, raids will be necessary.

Raids made on supposed liquor selling places in this city have recently been without result. However, it has been necessary to arrest a number of inebriated citizens, and authorities have been endeavoring to discover their source of supply. It is thought that cider sold at a number of soft drink parlors furnishes the necessary source, and authorities are determined to clean up these places.

BUNDLE DAY HERE IS GREAT SUCCESS

Nearly Two Tons of Clothing Contributed by School Children — Hundreds of Bundles Are Being for Shipment.

Bundle day for the Near East relief was a complete success in this city. School children brought together 3,430 pounds of clothing and more than fifteen large sacks of shoes, which have been baled and sent to the central relief headquarters.

Rev. W. H. Marbach, who was chairman of the bundle day committee, wishes to extend his appreciation to the leaders, members of the Woman's club and school children for their aid and co-operation in making the affair a success.

Schools of the city which contributed bundles to the assortment were: Norton, Franklin, Jefferson, Washington, Lafayette, David Prince and high school. Hundreds of bundles were handed in, and in some schools it appeared that each child brought a bundle.

JUBILEE PLANS NOW SHAPING RAPIDLY

Formaz Day May 15th Followed by Rount Day—Banquet Will Be Served at Auto Inn—Mass Meeting at Grand Opera House

There will be a large assemblage of people in Jacksonville May 15 and 16 for the triple jubilee celebration planned by the Church of Our Savior. The occasion marks the 70th anniversary of the founding of the church, the 25th anniversary of the service of Father Formaz in the ministry and the 23rd anniversary of his connection with the Jacksonville work.

It is called to mind that when the Church of Our Savior was established 70 years ago that it had a membership of 300 people resident not only in Jacksonville but in all parts of the county.

Membership Growth
Twenty years ago when the 50th anniversary of the church was observed with the silver jubilee of the late Father Crowe, the membership of the church had grown to 1,500. Today there has been a 100 per cent increase by comparison with the figures of 20 years ago and the membership roll today includes 3,000 names. The work of the church has broadened in more ways than one and it worthy of mention that Rount college has been a development of the 20 year period.

The two days events will begin with the celebration of solemn high mass together with a sermon at 10 a. m. Tuesday, May 15. The sermon will be by Rev. Dr. John Webster Melody of Chicago.

At noon on that day an informal luncheon will be served at the Pacific hotel for visitors and at 2:30 a notable parade will occur. The evening banquet will be at 7 o'clock and will be served in the assembly room of the Auto Inn building.

Extensive preparations are now in progress there, including the establishing of temporary kitchens. This is expected to be the largest banquet that has ever been served in Jacksonville and for that reason especially extensive facilities have been arranged.

Banquet Program
Father Formaz will of course have prominent place at the banquet and throughout the events of the two days. The toast master for the banquet will be Father Thomas Cusack of Carrollton. The program of toasts has not been entirely arranged but among the speakers and their themes will be the following:

"Our Country"—Father William T. Sloan.
"The Clergy"—Father Christopher S. Bell.
"The Athens of the West"—Father Andrew Smith.
Solo, "Father O'Flynn"—Terrence Brennan.
"The Church of Our Savior"—Father William M. Costello.
"The Silver Jubilee"—Father A. J. Burns.

Wednesday morning a requiem high mass will be celebrated at 10 o'clock. At 2 o'clock in the afternoon a special entertainment for children will be given at the opera house and during the same hours automobiles will take visitors on a sight seeing trip thru Jacksonville and environs.

Mass Meeting
At 8 o'clock Wednesday night a mass meeting will be held at the opera house. John W. Clary, who is general chairman, will call this assemblage to order and introduce Mayor E. E. Crabtree as the chairman for the evening. Judge H. P. Samuell will speak as a representative of Morgan county and among other addresses made will be one by Hon. Edmund Burke of Springfield. The complete program for this evening has not yet been outlined.

Tuesday is to be known as Formaz Day and Wednesday as Rount Day and during the events of Wednesday due recognition will be given to Rount college and what the institution has meant to the Church of Our Savior and to the city. As already indicated, John W. Clary is the general chairman of the committee with J. J. Kelly as general secretary. The executive committee includes the two mentioned and the following: James McGinnis, J. N. Kennedy, Thomas Duffner, James T. Flynn, E. A. Brennan, D. Scott Sweeney, Joseph Mallen, Louis A. Cain, Leo J. Flood, and J. V. Kennedy.

Nature's aids
to
Beauty

You have heard it said, perhaps, that beauty is one-quarter nature and three-quarters care. No truer statement was ever made.

True beauty does not reside in the features, but in the velvety softness and attractive coloring of a healthy skin, the glory of healthy hair becomingly dressed, and the universal charm of well-kept hands and nails.

Every woman is endowed by nature with these attractions or can acquire them through the regular practice of proper care and the employment of simple and reliable beauty aids. We will consider it a privilege to advise with any woman on such matters. And we absolutely guarantee the toilet requisites we recommend.

TWO COMEDY DRIVERS IN INDIANAPOLIS RACE

Ira Vail and Cornelius Willett Van Ranst are known as Vail and Van—Funny as Weber and Fields.

Indianapolis, Ind., May 10.—There will be one team of drivers up on one of the Scheel-Frontenac in the 500 mile race at Indianapolis Motor Speedway, Wednesday, May 30, as famous as laugh producers in "gasoline alley" as Weber and Fields or Gallagher and Sheen on the stage. The team is known as Vail and Van. Ira Vail, with a Brooklyn drool, is the senior member with years of experience on the speed course. His partner is Cornelius Willett Van Ranst, an engineer who was Chevrolet's right hand man in the construction of the creations which won the 1920 and 1921 events on the local track, and who made a most creditable showing in his first big league driving experience at Indianapolis in 1921.

Their presence in the Scheel-Frontenac outfit sponsored by the Scheel Motors company of St. Louis, Mo., lends a note of distinction to the racing camp. It means that there will be few moments after they make their entrance.

They will roll to the track in Vail's Rolls-Royce "a couple of plumbers going to work" as the track followers characterize it. Vail, slender and short looks more like a bond salesman than a racing driver and Van Ranst, tall and graceful could easily pass as a member of the British peerage.

Vail is best known for his prowess in wheeling cars over flat tracks. The same conditions obtain at Indianapolis. He gets sick and dizzy on the board bowls, so after the Indianapolis event he tours the eastern tracks, towing his racing car from event to event. He holds numerous records.

Van Ranst is called into play this year to assist Vail. Vail will be sent to the mark to "beat it"

rushing his car at top speed in an attempt to lead the field. About half way he will relinquish the wheel to Van Ranst, fresh and rested, who will continue the dash. It is a time worn strategy that has not been evident on the course in recent years. It has won races when the car thus driven could stand the terrific strain.

Although Vail makes a business of racing Van Ranst speeds for the sport of it. He is an engineer for a large motor car manufacturer in Detroit. Van Ranst was well up in the front in the speed race of 1921 when his car broke up, but he demonstrated his ability as a master driver. He has since competed in numerous dirt track events often tying with Vail for honors.

The two are the best of friends and between them they will attempt to have their mount in the "pink of condition" to withstand the abuse they expect to give it in the long five century grind.

WHITE HALL COUNCIL NAMES COMMITTEES

Various Committee Members
Have Been Named by Newly
Organized City Council —
Other White Hall News.

White Hall, May 10.—Adjourned sessions and conferences have characterized the newly organized city council, and it has been decided to give no further consideration to the municipal electric proposition and the telephone franchise until the regular June session, following a conference Tuesday night. The electric proposition promises smooth sleighing, but the outlook is not so favorable for the thirty-year franchise requested by the Illinois-Bell Telephone Co.

The council is working splendidly under the new organization. The committees are: Fire and police, Conrad, Dawdy, Spangenberg; claims, Dawdy, Sullivan, Winn; finance, Shaw, Seely, Sullivan; streets and alleys, Seely, Winn, Conrad; sanitary, Sullivan, Conrad, Seely; water, Winn, Shaw, Dawdy. The appointed officers are: Marshal, Thomas; superintendent of streets, Elmore Dean; assistant, Luther Dean; water superintendent and city collector, H. R. Fry; oil inspector, Robert Singleton; public engineer, H. L. Caldwell; night policeman, George Dyer; fire chief, William Mace; first assistant, George Spangenberg; second, Clark McMahon. The city board of health organized with Mayor Roodhouse as president, Clerk Thompson as secretary, Aldermen Shaw and Winn, Drs. Tunison and Peek. The duties of the marshal were extended to the custody of the new Whiteside-Grissold memorial library and public rest room, and his salary was enlarged from \$100 to \$120 per month. The successful management and conduct of this institution will develop largely upon the ability of the marshal to maintain cleanliness and orderliness.

Street Improvements.
The extension of Douglas street east over the C. & A. and the

Burlington tracks to Maple Heights, and the extension of Center street north to Olive street, being in rear of the new high school premises, were referred to the street and alley committee. The C. & A. was ordered to install a crossing bell at Tunison avenue. The lights on the water tower are to be put in first class condition, and the tower will be cleaned and painted.

The matter of trains blocking crossings for excessive length of time came up for earnest consideration, and the matter will be handled with the railroad people in a manner that will get results without incurring any ill feeling.

The oiling of the streets was ordered begun at once under the contract for delivering the supply as desired by the city.

There will be a change in the apportioning of the funds in order to avoid transfer from one to another as far as possible in the future. The city has for years been conducted under the budget system, and the system has been improved until it is a model. When R. F. Barnett surrendered the clerkship to G. C. Thompson he produced a system of double entry ledger accounts that enables the clerk to ascertain without delay any transaction involving funds. The system requires an experienced bookkeeper, and the council has gone on record as demanding the services of a qualified city clerk in the future in order that the excellent system of business may be retained and improved. These qualifications are abundantly present in Mr. Thompson.

Fruit Not Injured.
This section emerged from the unseasonable over the weather conditions last night with confidence that no damage resulted to crops or vegetation of any kind. The temperature went down to 30 degrees, but the wind blew until sunrise with briskness, and ice formed in places without frost forming. The cloudiness cleared at 1 a. m. Attention on the outcome was directed to the apple regions northwest of White Hall, and reports from there are reassuring. Mr. McClay stating that he figures a temperature of 27

degrees necessary to kill apples at this stage. Prospects for an enormous crop are not banished by any means. There is no report of damage to tender vegetation, but people generally used protective measures on beans, tomatoes, flowers and other tender stuff.

Wilbur Hull arrived from Jersey City, Tuesday, and will be the guest of his parents, Mr. and Mrs. T. M. Hull, for a fortnight. He was on Pennsylvania train No. 27 that was derailed twenty-five miles west of Indianapolis about 7 o'clock Monday morning. The engine and one car passed over a switch in safety, but the others of the ten car train followed a switch lead. The miraculous part of it is that the entire train held together and remained upright, not a single passenger being injured.

There were two social functions at the home of Miss Edith Chapin on North Main street this week. Monday evening 500 was the feature, and on Tuesday afternoon it was the bridge gang, twenty-four ladies participating. Miss Alice Potts and Miss Edith were the hostesses.

CHAS. H. GIBBS

Tuesday evening, April 24th at 8:45 o'clock, death came to claim one of Morgan county's best citizens, Charles H. Gibbs, of Lynville, being at the time of his death 56 years, 11 months and 19 days.

Mr. Gibbs was the son of Thomas and Sarah Coultas Gibbs and was born near Concord May 5th, 1866. On April 6th, 1892, he was united in marriage with Miss Mary Alice Scholfield near Lynville who survives him. To this union 5 children were born, Mildred A., wife of Otis B. Van Winkle, of near Franklin; Wilbur R., of near Winchester, and Charles Virgil, at home. Two children preceded him in death, Gayle Elizabeth two and a half years ago, and Paul, dying in infancy, also his mother and father, a sister, Mrs. Lilhe E. Owings, and a brother, passed away in infancy. He also leaves to mourn his death five grand children of which he was very proud and a host of relatives and friends.

Funeral services were held at 2:30 o'clock on Thursday afternoon in the Christian church at Lynville. The building was packed to the doors and hundreds of people stood outside. The Rev. L. R. Cronkrite, pastor of the church, conducted the services and delivered the funeral discourse. Rev. M. L. Pontius, pastor of the Central Christian church, of Jacksonville, read scriptures and led in prayer. Rev. J. W. Camp of Eureka, a life long friend of the deceased, read the obituary notice and paid a very fitting tribute to Mr. Gibbs.

Music was furnished by a quartet consisting of Mrs. John Heaton, Mrs. L. R. Cronkrite, Henry Gordon and Dr. R. R. Jones. Brother Cronkrite sang a solo, "When They Ring Those Golden Bells for You and Me." The many beautiful flowers were cared for by Miss Goldie Hundley, Miss Edna Coultas, Mrs. Margaret Heaton, Mrs. Thomas Dodsforth, Mrs. Carl Gordon, Mrs. Chester Scholfield and Miss Carrie Campbell.

The pall bearers being deacons and elders of the church of which Mr. Gibbs was a faithful and devoted member: Fred Jewsbury, William Davidson, John Allen, Arch McKinney, Albert Jewsbury, John Heaton, Cleve Overton, and Irvin Gouveia. Soldiers of Christ, arise.

And put your armor on,
Fight for the battle will be ours;
We fight to win a crown.

We fight not against flesh,
We wrestle not with blood;
But principalities and powers,
And for the truth of God.

I am sure if he could have spoken to us before he passed on to eternity, he would have urged us to have done what this little poem says, as he put his whole heart and soul into the work Jesus Christ left on earth for us to do.

When a young man Mr. Gibbs united with the Lynville Christian church and since that time he has lived a consistent Christian life, always ready to minister to the many needs of others as best he could. Being at the time of his death superintendent of the Sunday school for which place he had served for thirty years, as well as an officer in the church over a period of twenty-five years. His welcoming footsteps will be missed not only from his home, but the church which he loved so well.

Mr. Gibbs followed the occupation of farming but found time to help in whatever way he could for the betterment of the community in which he lived. During the world war he was an earnest worker in the Red Cross and gave his moral and financial support. His influence for good will be felt throughout the many, many years to come.

It may be at noon, when the day is
awaking,
When sunlight through darkness and
shadow is breaking
That Jesus will come in the fullness
of glory,
To receive from the world His own.

It may be at midday, it may be at
twilight,
It may be, perchance, that the black-
ness of midnight
Will burst into light in the blaze of
his glory,
When Jesus receives His own.

O joy! O delight! Should we go with-
out dying,
No sickness, no sadness, no dread and
no crying,
Caught up through the clouds with
our Lord into glory,
When Jesus receives His own.

A FRIEND.

EX-SERVICE MEN PLAN REUNION IN AUGUST

Four Day Reunion Planned by
Ex-Service Men of Green, Scott,
Morgan and Pike Counties—
Roodhouse Post Plans Decora-
tion Day Program

Roodhouse, May 8.—A convention of the ex-service men from Green, Scott, Morgan and Pike counties will be held at Jacksonville some time this month to determine the plans and arrangements for the first four day soldiers' reunion to be staged at Mercedia bay during the month of August.

Legion Post commanders from every post in the territory are asked to co-operate with the promulgators of this event, in making it a huge success. It has been suggested the ex-service men, not affiliated with any post, should be also asked to send a representation to the meeting, the date of which will be announced later. The feature of the reunion will be a field and track meet between each county as a contesting unit. Also a baseball schedule is being arranged and suitable awards shall be given to the winners. Boat racing and swimming and diving contests will mark this important event.

Concession privileges will be granted by the proper authorities and every effort is being made to convert this period into a gala day for the sailors, soldiers, marines and other of the aforesaid district.

Under the auspices of the Roodhouse post of the American Legion, Decoration Day will be observed in this city in a befitting manner. The program subject to change will be carried out as follows:

At 1 p. m. the Roodhouse band will give a selection at the park, followed by the invocation by Rev. A. E. Cole, minister of the M. E. church. Prof. G. K. Hutchins, superintendent of city schools as master of ceremonies will read the historic document, the Lt. Edward's letter to his mother, written at the front in the A. E. F. just before this officer made the supreme sacrifice for his country. The address of the services will be given by Ira E. Brown of this city and a member of the Roodhouse Legion post. After the closing of Mr. Brown's discourse, the spokesmen for the Knights of Pythias and the Odd Fellows will recite their memorial rites for their comrades and brothers who have answered the Grand Master. The benediction will be pronounced by Rev. John S. Briakman, of the Baptist church, after which the assemblage will fall in for the march to Fernwood cemetery for the final ceremony of the day.

The band will head the procession, followed by the color guard and the colors, immediately behind these will come the Legion members and their ex-service men. The K. of P. standard and colors will follow the Legion contingent, in company with the Dokays with muffled drums.

The Sunday schools are asked to fall in behind the Odd Fellows who have been given a place just behind the Knights and the entire column will march to the cemetery in this manner.

FOOD MAKERS LAUNCH

DRIVE FOR NEW RECIPES
A nation-wide campaign, which will give every housewife in America a chance to prove her inventive ability in the culinary field was launched May 1st by the Postum Cereal Co., Inc., of Battle Creek, Michigan, manufacturer of Grape-Nuts.

Grocers are being supplied with circulars, for free distribution over their counters, giving full particulars of the plan which is expected to reveal not less than one hundred new uses for Grape-Nuts.

For more than 25 years, Grape-Nuts has been sold and advertised as a cereal food. But interesting letters from women in all parts of the country, describing the many attractive dishes they are making with Grape-Nuts,

have convinced the manufacturers that a national drive for new uses of Grape-Nuts should develop a host of valuable suggestions, which will be warmly welcomed by busy housewives everywhere.

Not less than 101 recipes or suggestions will be purchased at \$50 each and \$2500 additional, divided into four awards of \$1,

000, \$750, \$500 and \$250, respectively, will be paid for the four best recipes or suggestions submitted. Good Housekeeping Institute, conducted by Good Housekeeping Magazine, will decide the four recipes or suggestions entitled to these special awards. The conditions, as explained in newspaper advertising and circu-

Truck loss turned into profit

Cost records of a truck fleet showed that three of the trucks had passed the "dead-line." They were losing money every mile they worked; "oil hogs," and continually in need of repairs.

The superintendent decided to try

SUNOCO
THE DISTILLED OIL

and immediately those trucks became money-makers again. They had more power; used less gas and oil; and repairs disappeared.

Every cent you cut from cost increases profit. Why not see how much Sunoco Lubricants can add to your profits?

Every type of Sunoco is wholly distilled; absolutely pure, like distilled water. There are many interesting facts about Sunoco that are worth knowing. We'll gladly tell you what they are.

OBITUARY.

Mary L. Hughes, daughter of the late Allen B. and Evaline Hughes, was born February 16, 1856, at Murrayville, Ill., and departed from this life about 10:30 a. m., Friday morning, May 4, 1923, at the age of 67 years, 2 months and 15 days.

She was preceded in death by her twin sister, Sarah, who died in infancy.

On August 16, 1874, she was united in marriage to Robert D. Rimbey. To this union was born one son, W. B. Rimbey, of Murrayville, who, together with her husband and four grand children Jesse Allen, Marian, Alice and Eleanor Rimbey, besides a host of relatives and friends are left to mourn her loss.

Mrs. Rimbey was converted and joined the Methodist church in early girlhood, since which time she had lived a consistent Christian life. She was a firm believer in the efficacy of prayer, and had remarked on different occasions, that she had no doubt but that some time her prayers, for the final meeting of her loved ones, in the Great Beyond would be answered. She was a devoted and loving wife and mother. A kind and obliging friend and neighbor, ever ready and willing to bestow a favor with out the slightest thought of reward.

Why should our tears in sorrow flow.

When God recalls his own, And bids them leave a world of woe

For an immortal crown

Is not 'e'en death a gain to those Whose life to God was given Gladly to earth their eyes they close

To open them in Heaven.

Their toils are past, their work is done, And they are fully blest: They fought the fight, the victory won, And entered into rest.

Then let our sorrows cease to flow, God has recalled his own; But let our hearts in every woe Still say, "Thy will be done."

Soldiers of Christ arise, And put your armor on; Fight for the battle will be ours, We fight to win a crown.

We fight not against flesh, We wrestle not with blood; But principalities and powers, And for the truth of God.

I am sure if he could have spoken to us before he passed on to eternity he would have

urged us to have done what this little poem says, as he put his whole heart and soul into the work Jesus Christ left on earth for us to do. When a very young man Mr. Gibbs united with the Lynnville Christian church and since that time he has lived a consistent Christian life, always ready to minister to the many needs of others as best he could. Being at the time of his death superintendent of the Sunday school for which place he had served for thirty years, as well as an elder in the church over a period of twenty-five years. His welcoming footsteps will be missed not only from his home, but the church which he loved so well. Mr. Gibbs followed the occupation of farming but found time to help in whatever way he could. During the world war he was an earnest worker in the Red Cross and gave it his moral and financial support. His influence for good will be felt thruout the many, many years to come.

It may be at noon, when the day is awakening, When sunlight thru darkness and shadow is breaking That Jesus will come in the fulness of glory To receive from the world "His Own."

It may be at midnight, it may be twilight, It may be perchance that the blackness of midnight Will burst into light in the blaze of his glory. When Jesus receives "His" own.

O joy! O delight! should we go without dying, No sickness, no sadness, no dread and no crying, Caught up thru the clouds with our Lord into glory, When Jesus receives "His" own —A Friend

Where Quality Counts

One third of the cost of a good plumbing, heating or electric job is for work hidden from sight beneath walls and floors, and underground. Costly trouble is sure to develop unless this "unseen" work is properly done. Reliable materials and skillful workmanship cost less in the end—and we supply 'em.

Market Report

By The
Associated
PressWHEAT FOLLOWS
STOCK MARKET

CHICAGO, May 10.—Notwith-
standing a show of strength at the
outset, wheat averaged lower in
price today largely as a result of
weakness in the stock market.
Wheat closed unsettled at 1 to 1½
cent decline, with July \$1.17½ to
\$1.17½ and September \$1.16. Corn
closed 1 to 1½ cent higher, with
July \$0.75 to \$0.75 and September \$0.75
to \$0.75.
At first the wheat market was
bullishly affected by the refusal
to restrain trading in future deliv-
eries of sugar and by an upturn
in Liverpool quotations. Orders
here for the purchase of wheat
failed however to develop the vol-
ume which might have been ex-
pected. On the contrary, selling
pressure increased and the early
gains were soon much more than
wiped out, with but little evidence
given that the market possessed
power to rally, buyers appearing
to be specially deterred through
misgivings over setbacks in se-
curity values at New York and be-
cause of the bearish action of
prices for cotton.

Dispatch of a British war ves-
sel to Russian waters had no ap-
parent influence on the wheat
market. More notice in fact was
given to the fact that the Soviet
government was in a large supply
of wheat and other grain that was
accumulated through tax pay-
ments in cereals instead of in
money. It was asserted also that
the new crop promised to be good
in some parts of Russia, and there
were predictions that Russia
would be a factor in the export
trade this coming season.

Corn and oats duplicated the
action of the wheat market. Bulls
in the corn market were handi-
capped by some lessening of ship-
ping demand here for corn.

Provisions were depressed by
selling ascribed to packers and by
talk of slowness of cash inquiry.

It is gratifying to know that this year the Manchester school has been given recognition by Mr. Thrasher and is on the credited list even though additional equipment and space has been needed. There will be a special effort by the board to meet all requirements for next year and to keep up the standard already gained.

The Manchester boys ball team sprung quite a surprise on the Roodhouse boys in the game played here on Thady field. The two teams played a good close game with several errors on both sides. The score stood 2 to 2 at the end of the fifth inning. The final score was 9 to 7 in favor of Manchester. The Manchester team plays Roodhouse team at Legion park Tuesday evening and the Roodhouse battery is coming out strong to defeat Manchester. Manchester's star pitcher, Orville Kelley, gained quite a good deal of commendation from both sides when the crooked balls he pitched, which the Roodhouse boys seemed unable to find. Dill of Roodhouse also pitched a good game.

News Notes.

E. L. Main left Tuesday night for a visit with his sister-in-law, Mrs. James McCracken in Lee's Summit, Mo. His daughter, Mrs. L. R. Hitting, and little son, Paul, Maine, who have been with him for the past two weeks, have returned to their home in Davenport, Iowa.

Mr. and Mrs. Glenn Funk visited relatives in Springfield Sunday.

The condition of Henry Bell, who has been very ill for the past few days, remains unchanged.

Miss Lucille Hardy entertained the members of the Worth White Guild of the Baptist Sunday school on Tuesday evening at her home here. Several members of the class were present and a social evening enjoyed. The hostess served refreshments of home made ice cream and wafers.
